

Laboratory Seminar SS 2021

Online Seminar, Thursday 9:00 - 10:30

Schedule:

22. April:	G. Rouille	Carbonate formation: gas-phase condensation exp.
29. April:	T. Suhasaria	Experiments in Münster and Napoli
6. May:	tbd.	
13. May:	Holiday	
20. May:	A. Potapov	A new "non-energetic" route to complex organic molecules in astroph. environments: the $C + H_2O \rightarrow H_2CO$ solid-state reaction
27. May:	H. Mutschke	Conference summaries IDP2021 and SOFIA W1
3. June:	Holiday	
10. June:	S. Krasnokutski	Helium tagging photodiss. spectroscopy of cold ions
17. June:	Ko-Ju Chuang	Top-down route: alkyne acts as a molecular backbone to form N-bearing complex organic molecules
24. June:	Jiao He	
1. July:	A. Potapov	To have or not to have a DFG research grant
8. July:	C. Kranhold	Iron sulfide in lab & space
15. July	C. Jäger	Photochemical evolution of cosmic dust under X-rays
